Welcome to DropHub

DropHub lets anyone on the same network instantly share and access files, photos, and information — from any device, in a few clicks.

Fast Sharing

Drag, drop, and upload — no long waits, no confusing steps.

Simple Access

Sign in with Google or your account and get straight to your files.

Any Device

Works on your laptop, phone, or tablet — same hub, every device.

Recently Uploaded

Nothing uploaded yet.

How to Use DropHub

1. **Sign in** — use the Google button, or type any username and password and click Connect.
2. **Go to Storage Manager** — click it in the menu, or use the button on the Home page.
3. **Add files** — drag and drop files onto the box, or click the box to browse your device.
4. **Review your queue** — check the file list and total size; remove a file with X, or click Clear All to start over.
5. **Upload** — click Upload and watch the progress bar. You'll get a confirmation once it's done.
6. **Customize** — come back here anytime to switch Light/Dark mode or change the accent color.

Reset

Clears any queued files and puts appearance, notification, capability, permission, and privacy settings back to default.

Reset to Default
